

SÜPER GRES MP-2

Lithium Thickener Automotive Grease

Description

Lithium thickener based multi-purpose grease for chassis and wheel bearings used in the automotive industry.

Applications

It is used for chassis lubrication requiring grease and medium speed rolling bearings carrying light and medium loads in automotive industry. Recommended for wheel hub of heavy duty vehicles and construction equipment. Suitable for use at temperature between -20 °C and 140 °C.

Benefits

- Provides extended protection for especially wheel bearings of all vehicles, due to its remarkable thermal stability.
- Ensures extended lubrication by sticking on the bearings with its high water resistance.
- Can be used in especially high performing passenger car due to its excellent surface adhesion.
- Protects bearings against rust and corrosion.
- Ensures long service life due to its high oxidation resistance.

Performance

DIN 51825-K 2 K-20

Typical Specifications*

Thickener Type		Lithium
NLGI		2
Colour		Yellow
Base Oil Viscosity, 40 °C, cSt	ASTM D 445	150
Timken OK, lb	ASTM D 2509	50
Dropping Point, °C	ASTM D 566	→180
Welding Load	ASTM D 97	315
Rust Test	ASTM D 1743	Pass
